Section 1: Introduction to n8n & Workflow Automation Lecture 1: Welcome to the Course! Lecture Description [x] 📝 Title/Description/Module 👑

What you will learn and what you can achieve.

A quick, exciting demonstration of a simple n8n workflow.

[x] 🎨 Canva Mix ✍️

Lecture 2: What is n8n? [x] 📝 Title/Description/Module 👑

Understanding n8n as a "fair-code" automation tool.

Key differences between n8n, Zapier, and other automation platforms.

Exploring the possibilities: What can you automate?

[x] 🎨 Canva Mix ✍️

Lecture 3: Meet Your Instructor: Rifat Erdem Sahin [x] 📝 Title/Description/Module 👑

With a career in technology that began at an early age, Rifat Erdem Sahin has honed his skills at some of the world's most prestigious companies, including **Microsoft, Accenture, Capgemini, and Goldman Sachs**.

As a certified trainer for platforms like Coursera and The Knowledge Academy, Rifat has developed and delivered multiple training programs. He champions a dynamic "Tell, Show, Do, Apply" teaching philosophy. This method ensures you not only understand the theory but can also actively apply your new skills to real-world scenarios.

Rifat is passionate about self-learning and continuously refines his teaching methods to provide you with a modern, effective, and engaging learning experience that drives real results.
